ACKNOWLEDGEMENTS

Developing this manual was a joint project that benefited from the contributions of a number of people. Barbara Wyatt, former Wisconsin Deputy SHPO and now in private practice, prepared a preliminary draft of the manual. Her insights from viewing survey from the perspectives of both the state historic preservation office and the consultant provided invaluable assistance to us in the early stages of this project. Michigan SHPO staff members Amy L. Arnold provided useful feedback on a day-by-day basis, Robbert McKay offered helpful suggestions especially in regard to photographic and mapping standards, and Laura R. Ashlee edited the entire manual. Michigan Historical Center staff member Grant DeLong also provided important assistance in developing the electronic and digital photographic standards included in the manual.

Several persons from outside the Michigan Historical Center also provided valuable comments. They include Ina Hanel-Gerdenich, who reviewed the entire draft and provided detailed written commentary that materially improved the manual's early chapters; William and Irene Henry, who offered numerous useful suggestions; and Jennifer Metz, who was especially helpful in matters involving digital photography. Photographs and maps reproduced in this manual come from the Michigan SHPO's statewide inventory. The maps used as samples were produced by Past Perfect, Inc., Ina Hanel-Gerdenich, Miriam Rutz, and Norman Tyler.

We gratefully acknowledge the assistance of the persons and firms listed above.
